

## *Southeastern Baptist College: STUDENT COURSE EVALUATIONS*

At the end of each semester, all SBC Students are sent course evaluations for each course in which they are enrolled. These evaluations ask students to indicate their honest and anonymous feelings about a course and the way it was taught, rating each statement on the course evaluation by how satisfied/how much they agree with each statement, on a scale of 1 (poor/strongly disagree) to 5 (excellent/strongly agree). Students are asked questions regarding course organization, content, presentation, and evaluation techniques.

The following results show overall scores of the students who reported by completing the survey- percentages of students' agreement with positive statements concerning the content and quality of the course.

*\*\*Detailed, question-by-question results are on file and available upon request with the Institutional Effectiveness Office.*

*\*On the following chart, blank spaces indicate that particular course was not taught during that academic year; many courses are offered once every two years according to the suggested schedules.*
